

FACE AND BODY PRODUCT BROCHURE

Le Zagare Beauty Farm Cosmetics

After years of constant commitment and dedication we have been inspired by the world of wellness and beauty, creating an innovative and modern cosmetic line to satisfy every need. This is how the name was born: le Zagare Beauty Farm Cosmetics; which takes its name from our wellness centre le Zagare (the citrus flower that characterises Cannero). Inside our centre we are committed to:

- Nourish the skin in depth and on the surface to solve skin imperfections and strengthen the skin, allowing the emerging inner beauty at all times and throughout life.

- Enrich the soul and body, we are inspired by Italian aestheticians, satisfying the senses through: colours and fragrances. The renewed beauty inspires confidence and open-mindedness, allowing you to better appreciate yourself and others in the celebration of life.

Hyaluronic Acid called Hyaluronic Forte:

Moisturising serum 30 ml

It is a gel serum with a high content of Hyaluronic Acid, indicated to moisturise, protect and smooth the skin.

The preparation is a concentrated treatment that forms a thin, non-occlusive hydro-elastic film capable of retaining and slowing down trans-epidermal water loss, moisturising all skin types and in particular dry and dehydrated skin. It is a unique treatment which is able to combat the signs of skin ageing, giving the skin moisture, elasticity and smoothness, thanks to its high moisturising and elasticising effect, it is excellent for all skin types.

Stemynal Serum (with stem cells)

This is a serum with Hyaluronic Acid of 5 molecular weights and stem cells of plant origin. They are obtained from the end of the root and have the characteristic of repairing any type of tissue because in contact with the skin they create a process of skin regeneration. They are indicated in tissue rejuvenation and repair treatments because they stimulate the cells of the epidermis, which naturally slow down their renewal function with the passage of time.

Eye contour with Hyaluronic Acid:

It reduces and prevents puffiness and dark circles by stimulating microcirculation and fluid drainage. It moisturises and reunites the eyelid tissues, combating skin ageing and the formation of wrinkles;

it reduces signs of fatigue, providing an immediate sense of freshness

and well-being and making the eyes look perfect. It is ideal both in the morning to combat puffiness and swelling typical of waking up and in the evening to take advantage of the benefits during the night's rest. It is recommended for all ages and skin types.

Multivitamin moisturising cream:

It is a daily beauty treatment with a moisturising, plumping and revitalising action ideal for all skin types. Its light and smooth texture nourishes in depth, giving a feeling of comfort and freshness. Day after day, your skin is visibly healthier and regains its natural radiance.

Alpha Lipoic Acid Cream (called Platinum):

A cream that reduces skin ageing thanks to Antioxidants containing Vitamin C and E, which have anti-inflammatory power, improves microcirculation and gives the skin a younger, brighter appearance.

Micellar Water:

Our skin is weakened every day by external factors such as make-up, mask use, pollution. This water cleanses the face. It is important for removing impurities from our skin, and is the first step in preserving a healthy skin by protecting the skin barrier.

Cleansing milk:

This is a fluid emulsion with a rather rich consistency that carries out gentle cleansing while preserving the skin's natural protective hydrolipidic film. It is ideal for use in the morning during cleansing, in the evening it removes impurities and make-up residues.

Moisturising face mask:

It is ideal for all skin types, with high moisturising content.

Face and body scrub:

It is regenerating, illuminating and detoxifying, its exclusive super-technological formula exfoliates, smoothes and renews thanks to natural sugar crystals that remove dead cells from the epidermal surface, accelerating the physiological skin turn-over making the skin immediately soft, smooth and even.

Saline bendages:

They are made with saline solutions, which eliminate excess fluids by osmosis, they are detoxifying and combat water retention. They are indicated for cellulite and swollen legs.

Snail slime body cream:

Moisturising and protective cream. It leaves the skin soft and visibly more moisturised and supple. It is also excellent as an after-sun cream, thanks to its restructuring and anti-redness qualities.

Anti-cellulite body cream:

This is an essential treatment of excellence to combat existing cellulite and prevent its formation. Formulated with centella asiatica, horse chestnut and pineapple, it drains the tissues, improves blood circulation and promotes the elimination of liquids. It reshapes your shape making your silhouette toned, seductive, smooth.

Aromatic body water:

It gives a feeling of well-being by enveloping you with a warm, sunny scent that leaves a pleasant feeling of freshness on the skin. This spray moisturises and softens the skin.

Hand cream:

It is not a simple cream but a real beauty treatment: emollient; nourishing, anti-reddening and anti-aging for the skin of the hands. Thanks to its properties, it fights skin ageing, keeps the hands moisturised and gives the skin a youthful appearance.

Feet cream:

This is the best cream ever: it deeply moisturises and softens the skin and is able to absorb in minutes. It is used to effectively treat all types of calluses.
